BIG CAT RESCUE CORP.

NOTES TO FINANCIAL STATEMENTS

December 31, 2008 and 2007

1. Background Information

Big Cat Rescue Corp. (f.k.a. WildLife on Easy Street, Inc.) (the Organization) is a nonprofit organization in Hillsborough County, Florida which was formed under the laws of the State of Florida on April 4, 1995. The Organization's mission is to reduce the number of cats that suffer the fate of abandonment and abuse by educating people about the conditions that lead to the plight of these animals. This is done through tours of the sanctuary, which houses a substantial number of abused, abandoned and retired big cats; school education programs; species preservation efforts and hands on experience for interns from around the world.

Primary sources of income for the Organization are derived from educational tours and contributions from foundations, corporations, individuals, and special events.

2. Significant Accounting Policies

The significant accounting policies followed are:

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The financial statements of the Organization have been prepared on the basis of accrual accounting in accordance with accounting principles accepted in the United States of America. The assets, liabilities, and net assets of the Organization are reported as unrestricted net assets which are not subject to donor-imposed stipulations.

Contributions received and unconditional promises to give are measured at their fair values and are reported as an increase in net assets. The Organization reports gifts of cash and other assets as restricted support if they are received with donor stipulations that limit the use of the donated assets, or if they are designated as support for future periods. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose of restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activity as net assets released from restrictions. Donor-restricted contributions whose restrictions are met in the same reporting period are reported as unrestricted support.

2. Significant Accounting Policies (Continued)

The Organization records admissions, merchandising, and grant revenues as earned. The Organization records gifts of long-lived assets as revenue when they are received unconditionally, at their fair value. Conditional contributions are recognized as revenue when the conditions on which they depend have been substantially met.

In accordance with industry practice, animal collections are recorded at the nominal amount of \$1, as there is no objective basis for establishing value. Additionally, animal collections have numerous attributes, including species, age, sex, relationship and value to other animals, endangered status, and breeding potential, whereby it is impracticable to assign value. The Organization does not purchase animals. Rescue costs are recorded as expenditures in the period of acquisition.

Fund-raising revenues are recorded when received. Expenses are recorded when incurred in accordance with the accrual basis of accounting.

Donated professional services (which include accounting and legal services) are reflected in the statement of activities at their fair value if material. Volunteer services not requiring specialized skills are not reflected in the financial statements since no objective basis exists for recording and assigning values to many of these services. Materials and other assets received as donations are recorded and reflected in the accompanying financial statements at their fair values at the date of receipt. Donated services and materials for the year ended December 31, 2008 and 2007 were \$5,830 and \$34,786, respectively.

Cash and cash equivalents consist of cash held in checking and money market accounts and certificates of deposit with maturities of less than 90 days. At year-end and throughout the year, the Organization's cash balances were deposited in several banks. Management believes the Organization is not exposed to any significant credit risk on cash and cash equivalents.

The Organization's inventory which consists primarily of gift shop merchandise is valued at the lower of cost or market, and accounted for using a weighted-average cost basis.

2. Significant Accounting Policies (Continued)

The Organization states the other real estate owned which was either purchased or acquired through donation at the lower of cost or fair value at the date of donation. Fair value of such assets is determined based on independent appraisals and other relevant factors.

All property and equipment is recorded at cost. Depreciation is provided by the straight-line method over the useful lives of assets which is five years for equipment and 39 years for property. The Organization's policy is to record capital expenditures greater than \$1,000 as property and equipment.

The Organization is exempt from income tax under Section 501(c)(3) of the U.S. Internal Revenue Code. The Organization has been classified as an organization that is not a private foundation and has been designated as a "publicly supported" organization.

The financial statements include certain prior-year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the Company's financial statements for the year ended December 31, 2007, from which the summarized information was derived.
