

Answer key for Mathematics 3-5 Tiger

Please note – written responses should be graded by the appropriate rubrics as found on the source page.

Read about the tiger at

<http://www.bigcatrescue.org/tiger.htm>

Tigers eat between 40-90 pounds of meat a day. If you have 600 pounds of meat, what is the largest number of tigers you can feed for one day?

- 7
- 12
- 15
- 10

There are more tigers in captivity than in the wild. Today, there are 15,000 tigers in captivity; there are 400 Siberian tigers left in the wild, and 400 Sumatran tigers left. How many tigers are in captivity? Explain how you will solve this problem and what is the answer?

Add 400 and 400 and then subtract from the 15,000 to get answer of 14,200 tigers in captivity.
