

## **LEOPARDS**

### **SIXTH GRADE:**

1. Leopards have fur, give live birth, make milk and have a backbone.  
Therefore scientists classify them as what kind of animal?
2. How has human behavior impacted the Leopard population?

### **SEVENTH GRADE:**

1. The Black (melanistic) Leopard is often called what by mistake?
2. How long do Leopards live in captivity versus the wild? Why is there such a difference?

**For an extra challenge: Discuss the merits of life in the wild versus life in captivity.**

### **EIGHTH GRADE:**

1. What behavioral adaptations relative to their diet do Leopards display?
2. What structural adaptations aid in the Leopards survival?
